WESTERN RED CEDAR · FENCING

Fence & Panel Catalogue

Premium pre-fabricated cedar fence panels & gates — manufactured to spec in Canada. A curated selection of seven signature styles.

2026

Cedar that's milled, framed and finished to a higher standard — and proudly made in Canada.

NorthStar Building Products manufactures premium Western Red Cedar fencing for homeowners, contractors and dealers across the country. Every panel is pre-fabricated to consistent true dimensions, square and ready to install. This catalogue showcases seven of our most-requested styles — and if you can picture it, we can build it.

01 / MANUFACTURED TO SPEC

Consistent true dimensions, panel after panel.

02 / WESTERN RED CEDAR

Naturally durable, stable and weather-ready.

03 / 100% CANADIAN

Sourced and built here, start to finish.

04 / CUSTOM WELCOME

Alternative styles & sizes on request.

IN THIS CATALOGUE

All panels shown at 6'x8'. True dimensions, rail & board specs listed per style.

SIGNATURE STYLE / NS-100

Solid Privacy Cedar

*Full-board privacy,
clean from every angle*

Our flagship privacy panel — tight, full-length 1×6 cedar boards on a sturdy 2×4 frame for a smooth, uninterrupted face.

The go-to choice for backyards, property lines and pool surrounds where privacy comes first. Square, true and ready to install straight off the lift.

- WESTERN RED CEDAR
- 2×4 FRAMED
- MADE IN CANADA

SPECIFICATIONS

ITEM	SIZE	RAILS	BOARDS	TRUE DIMENSION
NS-100	6' × 8'	2x4	1x6	67.5" × 96"

LIFT SIZE 14 · MATCHING GATES & 1x4 BOARD OPTION AVAILABLE

NORTHSTAR BUILDING PRODUCTS

SIGNATURE STYLE / NS-210 • NS-215

Heritage Diagonal Lattice

Privacy below,
light and air above

A solid cedar base topped with a hand-set diagonal lattice — the classic West Coast look.

Available in two grades: a premium 1×6 panel on a full 2×4 frame, and a value-driven contractor panel built on 2×3 OT3 with 1×4 boards. Both keep sight-lines open up top while privacy stays high below.

- WESTERN RED CEDAR
- TWO GRADES
- DIAGONAL LATTICE TOP

SPECIFICATIONS

ITEM	GRADE	SIZE	RAILS	BOARDS	TRUE DIMENSION
NS-210	Premium	6' × 8'	2x4	1x6	69" × 96"
NS-215	Contractor	6' × 8'	2x3	1x4	69" × 96"

SIGNATURE STYLE / NS-220

Heritage Square Lattice

*A crisp,
contemporary grid*

NS-220 • 1×6 ON 2×4 FRAME • 6'×8'

The same solid-base construction as our diagonal panel, finished with a clean square lattice top.

The straight-grid pattern suits modern homes and pairs beautifully with black-trimmed architecture — a quieter, more geometric take on the classic lattice crown.

- WESTERN RED CEDAR
- SQUARE LATTICE TOP
- MADE IN CANADA

SPECIFICATIONS

ITEM	SIZE	RAILS	BOARDS	TRUE DIMENSION
NS-220	6' × 8'	2×4	1×6	69" × 96"

SIGNATURE STYLE / NS-310 · NS-315

Wood & Steel

Pre-stained framing,
black corrugated steel

A bold, modern statement — 26-gauge black corrugated metal set inside a pre-stained 2×4 frame.

Choose a fully solid face for maximum privacy, or crown it with a diagonal lattice top. The warm pre-stained frame against matte black steel reads sharp and contemporary on any lot line.

- PRE-STAINED WOOD
- 26-GA CORRUGATED
- SOLID OR LATTICE

SPECIFICATIONS

ITEM	STYLE	SIZE	FRAME	INFILL	TRUE DIMENSION
NS-310	Solid	6' × 8'	Pre-Stained 2×4	Black Corrugated	66.5" × 96"
NS-315	Lattice Top	6' × 8'	Pre-Stained 2×4	Black Corrugated	68" × 96"

SIGNATURE STYLE / NS-410

Good Neighbour Cedar

*Looks the same
on both sides*

Also known as shadowbox — boards alternate from side to side of the rail, so the fence reads identically from both yards.

Air flows through while privacy stays high, making it the courteous choice for shared property lines. Finished S1S2E for a smooth, splinter-free face on every board — no rough side, no bad neighbour.

- TWO-SIDED FINISH
- S1S2E BOARDS
- SHADOWBOX

SPECIFICATIONS

ITEM	SIZE	RAILS	BOARDS	TRUE DIMENSION
NS-410	6' x 8'	2x3	1x4 S1S2E	72" x 96"

IN THE FIELD

Gallery

Real installations across the country. Every project starts with a panel built to spec — and finishes as a fence that lasts.

IN THE FIELD — CONTINUED

Gallery

From courtyard screens to full property lines — cedar and steel, finished, installed and standing the test of weather.

LET'S BUILD YOUR FENCE
